

Advertise your online retail store.

We have now opened a new retail venue, www.shophereshopthere.com. This online mall gives you a website for your store within our website. Through that page we create with you we promote your retail store, driving new buyers to your own website and products. Buyers are directly linked to your website when they show an interest in your products. No actual orders are placed on our website, as we drive them to your website to order.

We do all the work needed to have you listed with us. With your approval we will build a full advertising page within our platform that is unique to your business. We will work with images and information you send, or we can grab that information from your current website.

Your page will have a full representation of your business. Here is a link to one vendor page so you can view what we have built.

<https://www.shophereshopthere.com/brand/a-cheerful-giver-candles>

- Sliding banners.
- About us.
- Lifestyle or product images.
- 4 to 6 featured categories or specials with direct links to your website.
- Business information including website address, phone number, address, etc.
- Map of your store location.
- Testimonies about your business and or products that you provide us.
- Social Media links that you want profiled such as Facebook, Pinterest and so on.
- Logo.
- Coupon or promotional option if you provide this to us.

We do all the work to add and market your website. Pricing is \$35/month or \$250/year.

If you do not currently have an online ecommerce website, we build database driven ecommerce websites for retail and wholesale customers at very competitive prices.
